Candidate Name	Position for which Candidate is Running
Lana Centonze	U.S. House of Representated District 18

Please give your answer to each of the following questions and please include your rationale with each answer. Please be concise and clear.

1. Please describe the qualifications and experience that make you the best candidate in your political race.
Answer: I am the best qualified candidate because of my almost 12 years of experience within the federal government as a federal officer. I bring to the table experience as to how the government runs and operate and extensive knowledge in Homeland Security.

2. Please explain what you believe are the most significant issues in this race, why you are running for this position and what differentiates you from the other candidate(s).
Answer: I am running because as a federal officer I was exposed to all of our laws which need improvements. I also want to fight for the America I knew growing up so my children can grow up experiencing all the wonderful things America have to offer. Some of the pressing issues we need to address are securing our borders, building back a thriving economy and protecting the family unit.

3. What will be your top 2 or 3 priorities during this upcoming term?
Answer: My top priorities are securing our borders, returning back to a thriving economy and updating infrastructure.

4. What is your position about massive immigration over our southern border? Should the federal government renew financing and building the border wall with Mexico?
Answer: I believe that a border wall is important. It helps the federal agents to do their job with efficiency and help minimize catch and release. We are releasing people into the U.S. we have no information on them. Its important to have a trail of information following each individual so we would know who they are and the pourpose as to why they entered into the U.S.

5. Should the US Congress legislate that November elections are under Federal control rather than the states regulating their own elections? What is the Federal government's role in setting voting rules and procedures for these elections, if any?

Answer: I believe there need to be stricter voting laws throughout the U.S. Only U.S Citizens should be voting and to have less compromise or cheating. Our voting system should be American made and we may have to return back to paper ballot until we have the ability to work on a better system.
