| Alexander Hale | U.S. Congress (TX-07) |

Please give your answer to each of the following questions and please include your rationale with each answer. Please be concise and clear.

1. Please describe the qualifications and experience that make you the best candidate in your political race.

Answer: I'm a fourth-generation Houstonian and energy consultant who has spent numerous years resolving often-distressed situations for global energy companies. Given my previous experience with The American Enterprise Institute and Senator Ben Sasse, I bring significant, relevant public and private sector experience to this race that my peers do not have. I'm additionally the only Christian Conservative in this race and have consistently supported the Constitutional principles that our country was founded upon.
2. Please explain what you believe are the most significant issues in this race, why you are running for this position and what differentiates you from the other candidate(s).

Answer: TX-07 deserves a representative who will actually fight for Houston's interests. The primary issue is that our sitting representative has had six years to address basic non-partisan issues that people care about within our district, and things have not improved. She also claims to support Houston's energy sector while voting with her party's leadership 99% of the time, including for policies that harm Houston energy companies. I'm running to champion Houston's energy economy, to fix the broken non-partisan issues plaguing our district, and to bring an honest and fresh Gen-Z perspective that our district's been missing. As mentioned, I maintain a robust Constitutional Christian Conservative philosophy (and have a consistent track record proving this), and am armed with a pragmatic, problem-solving skillset that's been honed over years consulting for major corporations. I'm the only candidate in this race who combines principled Conservative Christian values and convictions with relevant, real-world experience.

3. What will your top 2 or 3 priorities be during this upcoming term?
- Answer:**
1. **Fiscal Responsibility:** Cut wasteful spending and end failed government programs. Implement sunset provisions to force every federal program to prove its worth.
 2. **Educational Excellence:** Every TX-07 child deserves access to a quality education. Support school choice and innovative approaches to improve student results while returning control to parents and local communities.
 3. **Public Safety & Border Security:** Back local authorities, oppose soft-on-crime policies, and continue securing the border in order to address the crime and illegal immigration challenges affecting Houston neighborhoods.
4. What are your solutions to identifying and cutting fraud and waste in the federal budget?
- Answer:**
1. Eliminate systematic fraud found within federally funded NGOs and public assistance programs. Programs meant for good are being exploited for destructive, fraudulent purposes—we must establish more extensive auditing processes to nip these crimes in the bud.
 2. We must modernize outdated government systems using AI and automation to reduce expensive contractor bloat and unlock cost savings.
5. What are the most important issues that Republicans need to focus on in order to maintain control of the US House in the November 2026 election?
- Answer:**
1. **Illegal Immigration:** Continue demonstrating the positive societal benefits of border security and enforcement. Every U.S. citizen wins when the laws are enforced.
 2. **Fiscal Responsibility / Affordability:** Conservatives must connect and show the relationship between fiscal discipline and lower costs. When we optimize the social safety net and reduce wasteful spending, families can keep more of their tax-dollars / paychecks.
 3. **Energy Dominance:** Republican leadership's decisions have led to cheap, abundant, reliable energy that powers jobs and lowers consumer costs.
