

Questions for Candidates for US Congress Offices from the Conservative Coalition of Harris County

Our questionnaire is designed to give the candidate space to indicate their reasons and opinions concerning issues surrounding their races. This questionnaire will be posted onto the Conservative Coalition of Harris County website for public voter viewing.

Candidate Name	Position for which Candidate is Running
Brett Jensen	Texas Congressional District 8

Please give your answer to each of the following questions and please include your rationale with each answer. Please be concise and clear.

1.

1.	Please describe the qualifications and experience that make you the best candidate in your political race.
	I am a successful conservative businessman who has built many companies and created thousands of jobs in Texas. I want to use my experience from the real world as an outsider to listen to my constituents and work for real change in Congress. There are too many lawyers and DC insiders in Congress who are looking to enrich themselves at our expense or get it on their resume so they can get rich after as a lobbyist or on tv. I am a conservative businessman who is an outsider from the real world who wants to serve to fix our nation's many problems.

2.

2.	Please explain what you believe are the most significant issues in this race, why you are running for this position and what differentiates you from the other candidate(s).
	Securing our borders, deporting illegals, reducing the amount of government in our lives, lowering taxes, election integrity, supporting domestic energy production, and supporting law enforcement.

3. **What will your top 2 or 3 priorities be during this upcoming term?**
1. We must have serious and sincere conversations about the crisis we are facing over our national debt and the unwillingness of our elected leaders to face this economic reality. Our debt is already having a profound effect on everyday life, most notably in the form of massive inflation and the corresponding high interest rates over the last few years.
 2. Fight alongside the Trump administration to deconstruct the administrative state, specifically the abuse of our civil rights via the massive and unaccountable surveillance state which has arisen over the last 20+ years in the wake of 9/11 and the Patriot Act. Additionally, the abuse of regulations and rulemaking by unelected bureaucrats and administrative law judges must be stopped and the existing federal code dismantled, Article I of the Constitution is clear CONGRESS MAKES THE LAWS not random executive branch employees.
 3. Work to restore the balance originally intended in our Constitution under the principles of federalism and limited government, lets make the 10th amendment GREAT AGAIN!
4. **What are your solutions to identifying and cutting fraud and waste in the federal budget?**
- DOGE was a good start, but we need more help on the ground, consider what Nick Shirley was able to do with an iPhone and an X account to expose the rampant Somali fraud in Minnesota ultimately leading to the end of Tim Walz's reelection and political career. We need a million Nick Shirleys all over America because sunlight will always be the best disinfectant. At the programmatic level we need to stop earmarks and focus on cutting the federal government, not just the growth of government but cut actual programs and departments like President Trump did with USAID.
5. **What are the most important issues that Republicans need to focus on in order to maintain control of the US House in the November 2026 election?**
- Work to lower inflation more, especially for core items like food, energy and most importantly housing. A key component of that is continuing the pressure on the board of the Federal Reserve to lower interest rates. Work to expand and speed up deportations of illegals and border security as that has the additional effect of helping to lower inflation.
