| Candidate Name | Position for which Candidate is Running |
| Jennifer Sundt | Congressional Representative District 38 |

Please give your answer to each of the following questions and please include your rationale with each answer. Please be concise and clear.

1.

Please describe the qualifications and experience that make you the best candidate in your political race.

Answer: My experience as both a small business owner and a trial attorney make me uniquely qualified to represent the district in Congress. I have distinct skills related to entrepreneurship, job creation, contract negotiations, budget management, elimination of waste and dealing with government regulation that shape my understanding and implementation of effective economic policies.

Additionally, my years of being a trial attorney have taught me: (1) the skills of effective advocacy, negotiation and building an argument; (2) problem solving; and, (3) when necessary, the art of questioning a witness. I have had to read and interpret the law, create solutions when none exists and draft legal papers and agreements. With these skills, I am uniquely qualified to advocate for the needs of the district and be an effective member of Congress.

2.

Please explain what you believe are the most significant issues in this race, why you are running for this position and what differentiates you from the other candidate(s).

Answer: Repealing and replacing Obamacare, improving the economy, making Trump's immigration policies permanent and pursuing term limits. I have three decades of life experience that have shaped my views and beliefs that include owning a business and perfecting my skills as a trial attorney. These are the very skills needed to effectively advocate for the district in Congress.

3.

What will your top 2 or 3 priorities be during this upcoming term?

Answer: Fixing Obamacare. This issue was the driving force behind the government shut down and it will be again and again until we come up with an alternative solution because it simply is not economically sustainable.

4. What are your solutions to identifying and cutting fraud and waste in the federal budget?

Answer: I think it would be worthwhile resurrecting DOGE and including a hotline to which whistleblowers could report fraud. I also think we need a constitutional amendment for term limits of members of congress. We have got to reduce the concentration of power of long serving members that pander to donors and special interests.

5. What are the most important issues that Republicans need to focus on in order to maintain control of the US House in the November 2026 election?

Answer: The economy and election integrity. Republicans have GOT to get to the polls.
