| Candidate Name | Position for which Candidate is Running |
| Larry Rubin | U.S. Congress – Texas Congressional District 38 |

Please give your answer to each of the following questions and please include your rationale with each answer. Please be concise and clear.

1.

| |
|--|
| Please describe the qualifications and experience that make you the best candidate in your political race. |
| I bring real-world leadership and results-driven experience that this district deserves. I am a longtime conservative advocate who has publicly defended Republican values since 2004 and served as a Trump surrogate in 2016, 2020, and 2024. I have spent more than two decades working at senior levels in business and public policy, fighting for American jobs, free enterprise, and pro-energy policies. I am a Rice University Executive MBA graduate and a proven coalition-builder who understands both local priorities and how Washington works. I am running as a committed conservative focused on delivering results, not rhetoric. |

2.

| |
|--|
| Please explain what you believe are the most significant issues in this race, why you are running for this position and what differentiates you from the other candidate(s). |
| The most significant issues in this race are border security and crime, inflation and affordability, and energy and economic growth. Texans are watching their country become less secure and more expensive because Congress has failed. I am running to defend Faith, Family, and Freedom and to restore accountability in the federal government. What differentiates me is real experience outside of politics and a proven record of conservative advocacy. This district does not need another career politician, it needs a leader who can get results. |

3.

| |
|---|
| What will your top 2 or 3 priorities be during this upcoming term? |
| My top priorities will be: <ol style="list-style-type: none"> 1. Securing the border, stopping fentanyl by enforcing the law, and holding federal agencies accountable. 2. Reducing inflation, lowering the cost of living by cutting reckless spending, and excessive regulation. 3. Protecting Texas energy jobs and restoring American energy independence to strengthen our economy. |

4.

| |
|--|
| What are your solutions to identifying and cutting fraud and waste in the federal budget? |
| Taxpayer dollars must be treated with discipline and respect. I support zero-based budgeting so agencies must justify every dollar they spend. I will push for aggressive oversight, regular audits, and transparency requirements for federal programs. We must eliminate outdated or duplicative programs, recover improper payments, and enforce real consequences for agencies that fail basic accountability standards. There must be no more blank checks and no more abuse of so-called emergency spending. |
5.

| |
|---|
| What are the most important issues that Republicans need to focus on in order to maintain control of the US House in the November 2026 election? |
| Republicans must focus on the issues voters experience every day: securing the border, stopping crime and fentanyl, reducing inflation, restoring fiscal discipline, defending energy independence, and protecting parental rights and individual freedom. To maintain control of the House, Republicans must remain united, deliver measurable results, and clearly show that conservative leadership improves the lives of American families. |
