| 1. Please describe the qualifications and experience that make you the best candidate in your political race. |
| Answer: Throughout my career in the State Legislature and as Attorney General, I have been a fearless conservative, a relentless fighter for the America First agenda, and a true defender of Texas values. As Attorney General, I've been on the front lines of the most important political and legal battles determining our nation's future. I sued the Corrupt Biden Administration over 100 times, winning the vast majority of cases and working to stop the invasion of illegal aliens and the trampling of our Constitutional rights. I've secured billions of dollars from Big Tech and Big Pharma, holding some of the largest corporations in the world accountable for violating our privacy and poisoning our citizens. I've sued doctors pushing "transition" drugs on our kids, taken on school districts allowing boys in girls' sports, and defeated the woke Left's attempts to take over our institutions. Now, I'm ready to take that same toughness to the U.S. Senate, where I'll shake up Washington and take a sledgehammer to the D.C. establishment. |

2. Please explain what you believe are the most significant issues in this race, why you are running for this position and what differentiates you from the other candidate(s).

Answer: The most important issue in this race is who has a proven record of standing up for what's right and getting results for Texas. While John Cornyn was cutting backroom deals with Joe Biden to pass the worst gun control bill in decades, I was suing the Biden Administration to stop their assault on the 2nd Amendment. While John Cornyn was trying to sabotage President Trump's presidential campaigns, I was one of President Trump's earliest and strongest supporters—including endorsing his 2024 campaign on Day 1. While John Cornyn was calling the border wall "naive" and saying it makes "no sense whatsoever," I have fiercely defended the construction of the border wall and our sovereignty against the lawless radical Left. While John Cornyn was fighting for amnesty in Washington, I've worked tirelessly to enforce our laws and supported deporting dangerous illegal aliens. My office gets more done and secures more wins for the people of Texas in any given two weeks than John Cornyn has in his forty-plus years of being a career politician. Cornyn has failed the people of Texas, and it's time for a change.

3. What will your top 2 or 3 priorities be during this upcoming term?

Answer: I'm running to ensure Texas is represented by a relentless champion for our conservative values. My top priorities are supporting President Trump, confirming conservative judges who believe in the Constitution, defending our borders, protecting America against foreign enemies like China, and eliminating wasteful spending that's bankrupting our country. We need to replace John Cornyn with someone who will deliver real results for the people of Texas on these important issues, and that's exactly what I'll do—just as I have as Attorney General.

4. What are your solutions to identifying and cutting fraud and waste in the federal budget?

Answer: We should relentlessly investigate and root out any government spending that goes to illegals, any foreign aid that goes to our nation's adversaries, abolish the Department of Education, and fire the tens of thousands of IRS agents hired by Corrupt Joe Biden. When it comes to government funding going to states, we must stop the flow of any federal funds to criminal-loving states like Minnesota—which have created a system that allows foreigners to steal taxpayer funds. We must ensure there are much more aggressive protections against the fraud built into every government program and that there is increased collaboration between program administrators and law enforcement. It's imperative that we bring the hammer of justice down on every fraudster looking to take advantage of taxpayers.

5. What are the most important issues that Republicans need to focus on in order to maintain control of the US Senate in the November 2026 election?

Answer: We must continue to focus on the driving issues that helped President Trump create his historic, winning coalition that delivered massive victories for Republicans in 2024. That includes passing President Trump's America First agenda, lowering costs and turning around the devastating Biden economy, securing our border, protecting our country from foreign enemies like China, stopping crime, Making America Healthy Again, and defeating the woke far-left. If we continue to pass the Trump agenda and deliver historic results for the American people on these important issues, Republicans will be successful in 2026.
