Candidate Name	Position for which Candidate is Running
Lance Stewart	CD 7

*Please give your answer to each of the following questions and please include your rationale with each answer. Please be concise and clear.*

1. 

1.	Please describe the qualifications and experience that make you the best candidate in your political race.
	<b>Answer:</b> I am a Christian, father, husband, and veteran small business owner who understands the importance of keeping Texans employed and free from federal mandates aimed at destroying our country.
  
2. 

2.	Please explain what you believe are the most significant issues in this race, why you are running for this position and what differentiates you from the other candidate(s).
	<b>Answer:</b> We have to not only take the House back but we need to elect representatives who aren't cowards. The Republican party cannot continue to allow our first amendment rights to be taken away. The democrats and the media have denied the first amendment right of freedom of speech for a sitting president and conservative members of Congress simply because they do not like them. If they do this to people elected into office, they will do this to the rest of us. We need to go after corporations such as Twitter and Facebook that aim to silence conservative voices. Election Integrity remains our biggest threat to democracy we are facing. We have only been one or 2 votes away from losing freedom. That has to change. We need to also protect the unborn, abolish cancel culture, protect constitutional rights, stop reckless federal spending, keep parents involved in education, protect and promote capitalism, and back the blue. I am not afraid to go after those corporations and stand for the people of District 7. I am running for this office because I feel called to represent those who have not been represented. I know firsthand about big media silencing conservative voices and I also know of the struggle fighting injustice from large corporations. Everyone has a voice which needs to be heard. I cannot speak for the rest of the candidates, but I am sincere when I say I am listening.
  
3. 

3.	What will be your top 2 or 3 priorities during this upcoming term?
	<b>Answer:</b> Accountability from media and members of congress, secure election integrity, abolish cancel culture

4. Please describe what you believe is the proper role for the federal government in job creation and intervention in the economy.
- Answer:** Capitalism is the best chance for anyone from anywhere to succeed. Comrade Pelosi openly criticizes capitalism-the very institution in which she herself has made millions while in office. The democratic party has progressively become more social and is fighting to erase our republic of a capitalist society. The dream where one can be and do anything is not dead and it will not be if I am elected.
5. Please describe your plan for balancing the federal budget. What budget items need to be cut (i.e. social programs) and what taxes and fees need to be increased?
- Answer:** Onboard the USS Gerald R. Ford, I was the departmental Repair Parts Petty Officer. I oversaw other RPPOS from divisions with assets collectively over \$1 billion. I witnessed firsthand the exploitation of government funds to corporations. Federal spending is out of control because, for many years, the pockets of many have been lined with tax dollars. We need to greatly revamp how the government spends money. For instance, a circuit card which I can build for under \$50 should not cost \$25,000, \$50,000, or even over \$100,000 but that is what the tax payers spend. Additionally, printing more money from the federal reserve is not the solution.
6. Should the federal government finance and build the border wall with Mexico? Should they allow the remaining materials from the Trump administration to be used by the state of Texas?
- Answer:** Yes. I was in charge of the large weapon systems onboard my ship. I am a defense expert and to that degree I understand the value of protecting our borders. The border wall not only greatly reduces the possibility of criminals entering our country, it protects us all from the possibility of terrorists crossing into our country to build terrorist cells. Furthermore, it greatly reduces the possibility of children, women, and men becoming victims of human trafficking.
7. Do you support defunding “Sanctuary Cities or States”? Should immigration laws be reformed?
- Answer:** Places such as Portland have become disastrous danger zones. Defund all of them. I would allow immigrants here that have been vetted to work under a work visa. Let them pay into an overburdened tax system. As a businessman who has greatly been affected by the Biden Administration’s encouragement for people to not work, let me tell you, I would much rather have someone here who wants to live in this country and pay taxes than someone who voluntarily chooses to not work when he can and therefore is paid to sit at home and do nothing. I would trade everyone who is abusing the welfare system for someone from another country who wants to work and pay taxes if I could.
8. Do you support defunding Planned Parenthood of all federal funds?
- Answer:** Absolutely. The abortion clinic known as planned parenthood I do not want my tax dollars going to nor that of anyone else. How is it acceptable to so willingly throw away life! Since Adam and Eve, we all know of the consequences of unprotected sex. It is not a surprise. If two people did not want a baby, there are things that can be done. I acknowledge rape cases are more sensitive. However, even in that situation adoption is an option. Abortion is murder. Life begins the very moment the cells begin to divide.

9. Should state or federal gun laws and restrictions be tightened?  
**Answer:** It is unfortunate criminals will always find a way to get a gun. Strict gun laws only hurt law abiding citizens. I would have a national reciprocity license put into effect. I absolutely agree with Governor Abbott's Constitutional Carry.
10. Do you support or oppose the Build Back Better multitrillion-dollar spending bill before Congress? If not, do you have any ideas about what should be done?  
**Answer:** We are already 20 plus trillion dollars into debt. The Biden administration has been vague about how it attends to accomplish the several trillion dollar plan and even his own party does not fully support it.
11. Should the Biden's administration have the power without congressional approval to create and enforce vaccine mandates?  
**Answer:** Good grief no. Those mandates are unconstitutional. Vaccine mandates would be the beginning of more mandates and eventual Marshall Law, the democrats would force themselves into power forever, and we would lose all of our freedom. I thank God I live in Texas.
12. Should the US Congress legislate that November elections are under Federal control rather than the states regulating their own elections? What is the Federal government's role in setting voting rules and procedures for these elections, if any?  
**Answer:** Under the provisions the democratic party has laid out for election laws it would be possible for someone to move into a state the day before the election and vote. This recklessness would make it much easier to vote in several states-which happened in 2020. Moreover, the dems want to also make it unconstitutional to demand a state id to vote. Somehow this is racist? I still need that to be explained to me. How is it not racist to have a state issued id required to cash a check, buy cigarettes or alcohol, board a plane, ect but when it comes to electing the government it is racist? The masses, even if they refuse to acknowledge so, see the rhetoric of the democrats' version of election mandates for what it is. The democratic party is trying to legalize its several decades long illegal activity of election fraud under the guise of racist rants to control the population or scare those who disagree into submission. The states have and shall retain the rights. The federal government has the control of when a national election or election involving the national congress is to take place. It does not have the power to mandate how a state chooses its representatives or in how it chooses a president.
