Candidate Name	Position for which Candidate is Running
Damien Mockus	US Congress CD 38

Please give your answer to each of the following questions and please include your rationale with each answer. Please be concise and clear.

1.

1.	Please describe the qualifications and experience that make you the best candidate in your political race.
	<p>Answer: I am in this to win it no matter what and I am an expert at everything and anything I've put my heart too. I have been a small business owner since 1995 with exception of few internships and side jobs. I have been a community leader and have raised between \$15,000 & 20,000 for 3 events at my previous place of business. In addition, I have donated thousands of dollars' worth of training and gym memberships within NW Harris County.</p> <p>Furthermore, I started a new businesses 4 times from nothing, and every time was a success. Except for fact, we are dealing with a terrible Presidential Administration and sluggish economy past 2 years now.</p> <p>Not that I take pride in this, but I also managed to succeed at all of this and I am legally deaf with a high frequency hearing loss.</p>

2.

2.	Please explain what you believe are the most significant issues in this race, why you are running for this position and what differentiates you from the other candidate(s).
	<p>Answer: We need stronger politicians that will truly represent the people that vote for them. We need stronger politicians that will NOT sell out to the swamp of Washington. We need politicians that are true leaders and successful under stress as well as pressure. I am running because of our government! Because of the simple fact that they messed with the wrong business owner!</p> <p>I am the only true conservative; I am the only true community leader and successful at helping others in their lives regardless of what goals or limitations.</p>

3. What will be your top 2 or 3 priorities during this upcoming term?
Answer: Strengthening our economy by making America a stronger exporter of goods, especially oil. Making Texas and America energy independent, closing our border and possibly abolishing the federal border patrol as we know it. Doing so by allowing the states to create own agencies and securing our southern border. Education and police/bail reform and funding are also top priorities.
4. Please describe what you believe is the proper role for the federal government in job creation and intervention in the economy.
Answer: Federal government shall have no roll in intervention of the economy: unless a federal natural disaster. The federal government only roll in job creation shall be within the DOD staffing and or federal government contractors.
5. Please describe your plan for balancing the federal budget. What budget items need to be cut (i.e. social programs) and what taxes and fees need to be increased?
Answer: There are far too many to list and I would have do research just to determine which get cut first and immediately. But the wasteful spending like this so-called Build back better bill is perfect example. The only tax or tariff that need to be placed is that of those American companies that use cheaper labor aboard. In short this is a huge topic and a bill or law should be passed as for what federal government can and can NOT do with tax payer money.
6. Should the federal government finance and build the border wall with Mexico? Should they allow the remaining materials from the Trump administration to be used by the state of Texas?
Answer: The federal government on this topic failed on epic proportions period. The states should build the wall and use the materials that taxpayers paid for. As I type they are wasting millions of tax payer money to safeguard these materials so we need to stand up as Texans and use them, immediately too!
7. Do you support defunding “Sanctuary Cities or States”? Should immigration laws be reformed?
Answer: Absolutely these cities are counterproductive and hurting themselves while at it. This is another good example of saving taxpayer money and why I am running for government! I’m beginning to wonder if we even have immigration laws. Seen on news just yesterday how our government wants pay illegals millions in taxpayer money.
8. Do you support defunding Planned Parenthood of all federal funds?
Answer: Planned Parenthood should be dissolved, cut funds from federal and states and never supported again by taxpayers.
9. Should state or federal gun laws and restrictions be tightened?
Answer: Hell NO! I am the only NRA member in this race! I am a strong and fighting member of the community for our gun rights and the very 2nd Amendment within our rights!

10. Do you support or oppose the Build Back Better multitrillion-dollar spending bill before Congress? If not, do you have any ideas about what should be done?
Answer: No not at all. This entire bill should be tossed in the trash. Makes me wonder why the heck some people really voted for these politicians that write and come up with these types of scams on their own American citizens.
11. Should the Biden's administration have the power without congressional approval to create and enforce vaccine mandates?
Answer: This is unconstitutional and unfortunately, they are doing it and getting away with it. Good example of bad politicians and again reason I am running for federal government, not local.
12. Should the US Congress legislate that November elections are under Federal control rather than the states regulating their own elections? What is the Federal government's role in setting voting rules and procedures for these elections, if any?
Answer: This is also unconstitutional! The Federal government must keep their bills, mandates, and noses in general out of the States voting rights and business. Just like I stated that each state should create own agency of border security.
- On final note! Having said and answered the above questions. You and the entire people of Harris County within our new 38th Congressional district has the power with your votes to send 1 person to Washington DC next year and I am that person!**
